To whom it may concern:

It is with great pleasure that I recommend the services of Barbara Lambert from Staging Space. Barbara was introduced to me by a mutual client earlier this year. Prior to meeting Barbara, I had never "styled" a property before despite 11 years of real estate experience. Since then, I have used Barbara's services on at least 10 occasions.

My agency normally handles properties in the top tier of Sydney's Inner City region, so our "blank canvases" are probably a good starting point compared with other properties nearby, however the before and after results have still been amazing (as the photos will show).

We have received amazing feedback from potential purchasers coming through our open for inspections, more views from our internet ads, fantastic sales results and the most astounding fact is that all of our properties that have been styled by Barbara have sold within 4 weeks (many of which sold on the first inspection).

The downside to this, is I have become so accustomed to brilliant results, I'm finding myself turning down potential sales which aren't well presented nor open to the possibility of styling their property.

Please feel free to contact me if we would like to speak further, I'd be delighted to take the call.

Sincerely,
Liberty Property Services
